## LORDS REPLY TO SULTAN'S PROTEST

IpoH.—It is understood that Lord Marchwood and Viscount Elibank have replied to the cablegram dispatched by His Highness the Sultan of Perak protesting against the provisions of the White Paper on the proposed Malayan Union.

The message assures His Highness that the Secretary of State for the Colonies has agreed to give immediate consideration to the importance of leaving the religious affairs to the Central Council of Malay Rulers.

If general agreement on all points was secured with goodwill, their Lordships state, they feel convinced the scheme would be to the advantage of Malaya and its peoples.

## ATOM BROADCAST KILLS TWO

Paris, Feb. 6.—Two Parisians are reported to have died from shock after Monday night's atom attack broadcast over Paris Radio. All day yesterday, doctors and hospitals throughout the city have been busy treating people suffering from nervous disorders resulting from the "too realistic" broadcast.

Gaston Deffere, new Socialist Minister of Information, this afternoon intimated that he is going to take measures against those responsible.

It appears that several theatre shows were stopped when an announcement was made about "impending disaster" and many sought shelter in Paris underground and in former air raid shelters.

As the broadcast went only over the local wavelength regions other than Paris were not affected, but Parisians were shaken when they suddenly heard a voice announce "we have to interrupt our programme. There has been a sudden offensive by atomic bombs. Please listen to instructions."

### PANIC IN PARIS

The incident recalled Orson Welles' historic "Invasion from Mars" radio-play which caused a great stir in the United States in 1939.

The broadcast started dramatically: "Here is an important announcement—atoms from radium used for research in America have broken loose."

Subsequent announcements followed fast on each other building up a fearful picture of disintegration of the world as unleashed atoms ran amok.

Building up to a grand climax and saying that the atom fury was nearing Paris, the broadcast suddenly ended with: "Wake up! You are dreaming."—Reuter.

### ANDAMANS & NICOBARS

New Delhi, Feb. 6.—The military administration of the Andaman and Nicobar islands in the Indian Ocean will end today when the Government of India will once again resume civil administration. The chief commissioner will be Mr. N. K. Paterson.—Reuter.

## HOT WORDS AT UNO

London, Feb. 6.—There was something of a sensation at the general committee meeting of the UNO this afternoon when the Soviet Ukrainian delegate, Dr. Dmitri Manuisky, branded as fascist the Uruguayan resolution calling on the United Nations to instruct the Nuremberg Tribunal not to apply the death penalty to war criminals.

Dr. Manuisky said that if he had not known that this resolution emanated from a United Nations delegation, he would have assumed that it had come from Nazi Germany. The Uruguayan delegate withdrew his resolution for further consultation with his government, but not until he had sharply rejected the Soviet delegate, A. Gromyko's advice that he should do so.—Reuter.

### JAP NAVAL INTELLIGENCE TO BE EXPOSED

Tokyo, Feb. 7.—Gen. MacArthur is out to expose the entire Japanese naval intelligence network during the war.

## Greek Controversy Ends

London, Feb. 7.—Members of the Security Council of the UNO heaved a sigh of relief yesterday when Chairman Norman Makin issued a statement formally ending the controversy between Britain and Soviet Union over the Greek issue.

The compromise formula does not require Britain to withdraw her troops from Greece but does not completely exonerate British policy in Greece as Ernest Bevin had demanded.

Earlier, Andrei Vyshinsky, chief Soviet delegate, proposing acceptance of the compromise formula declared that Russia would not insist that the Security Council should demand the withdrawal of British forces from Greece nor that the presence of British troops in Greece constitutes a threat to international peace.

## Civilian Rail Travel Soon

IpoH.—It is understood that normal civilian rail travel facilities will be resumed probably in a month's time. Supplies of tickets, permits, labels, etc., have been ordered from the United Kingdom and are on the way out to Malaya.

## 9,000 INA Men In Custody

New Delhi, Feb. 7.—Frank Mason, Secretary for War, India, revealed in the Central Assembly in New Delhi, today, that some 19,500 members of the Indian National Army have been recovered. Of these 6,000 are in custody in India and 3,000 in southeast Asia. A total of 11,000 have been released unconditionally.

Nine have been hanged and the number of persons dealt with by court martial totals 27. The trials were held in secret during wartime and in public thereafter.—Reuter.

## SLIM ON BURMA VICTORY

London, Feb. 6.—The Burma invasion was made from the wrong end because of lack of equipment and supplies, Gen. Sir William Slim, head of the Imperial Defence College, and former C-in-C of the 14th Army told the Royal Empire Society and the East India Association today.

Gen. Slim also said that the Japanese invasion of India was foiled only because the British commanders decided to withdraw their forces across the Chindwin River and into the mount-

# Russia Wants Peace—Molotov

MOSCOW, FEB. 7.—SPEAKING TO THE RUSSIAN PEOPLE AND INDIRECTLY TO THE ENTIRE WORLD OVER THE MOSCOW RADIO LAST NIGHT, SOVIET FOREIGN COMMISSAR V. MOLOTOV CHARGED THAT THE TALK OF WORLD WAR III WAS BEING ENCOURAGED BY "NON-COMMUNISTIC COUNTRIES."

Molotov declared that the Russian peace policy was not just a mere passing phase. It is encouraged by the basic interest and urgent needs of the Russian people. That is why, Molotov said, Russia is keeping a vigilant watch on events that might disturb the peace and security of the world.

The Soviet Union is putting in every effort for the creation of a world organisation for the preservation of international peace and security. The United Nations Organisation is already functioning and the Russian government and people wish it every success in its important task, Molotov said, adding that Russia would extend her co-operation to all big and small nations alike in international affairs.—Reuter.

### YAMASHITA'S APPEAL

Tokyo, Feb. 7.—Gen. Douglas MacArthur, Supreme Allied Commander in Japan, today ruled that Lt. Gen. Tomoyuki Yamashita must hang in accordance with the verdict of the American Military Tribunal in Manila. MacArthur's review of the case is final.

Announcement of the date of execution is now awaiting. Meanwhile a Manila report says that Yamashita is making a final appeal against his death sentence to President Truman.

## Backbone Of U.S. Navy

Washington, Feb. 7.—According to the annual report by U.S. Secretary of Navy Mr. James Forrestal, to President Truman, air power will be the backbone of the U.S. peacetime Navy.

The U.S. fleet will be divided into three component parts—an active fleet patrolling the two oceans, a reserve fleet in port and a laid up reserve fleet as emergency in time of war. The active fleet will have 13 carriers, four battleships, 13 escort carriers and a total of 3,600 planes.—Reuter.

## Death Sentence Commuted

Canberra, Feb. 6.—Australian Army Minister Francis Forde announced today that the death sentence imposed on Dec. 1 on Japanese Lieutenant Takchiko Tazaki on charges relating to the mutilation of Australian dead and cannibalism, has been commuted to five years' imprisonment with hard labour.

Evidence at the trial showed that Lieut. Tazaki, who was starving at the time he committed the crime, had eaten a portion of the flesh of an Australian killed in action.—Reuter.

## 'FLYING TIGERS' IN BUSINESS

Melbourne, Feb. 7.—Two ambitious young Americans, former members of Chennault's famous "Flying Tigers" who knocked the Japanese air force from skies over China, arrived in Canberra today to seek permission from the Australian authorities to inaugurate a commercial airline between Australia and China.

The young fliers, who together with two other American pilots have established a concern in Shanghai, hope to fly urgently needed piecemeals, medicines and vaccines from Australia to China. They see great prospects for the future of commercial airlines between the two countries.—Reuter.

### INTERNATIONAL JUDGES

London, Feb. 7.—The election of 15 judges to the International Court of Justice was made yesterday by the Security Council and General Assembly of the UNO. The successful candidates represent Britain, Russia, U.S.A., China, France, Brazil, Poland, Belgium, Yugoslavia, Canada, Mexico, Egypt, Norway, Salvador and Chile.—Reuter.

### JAP INFERIORITY

The Japanese army in command of staff organisation and equipment was inferior to even the Italian army, Slim said. What made it tough was the tenacity of the individual Japanese soldier who fought until he was killed.

He said that one of the greatest achievements of the 14th Army was its fight against disease, and the medical services reduced the incidence of sickness among the forward troops from 12 per 1,000 per day in 1943 to under one per 1,000 in 1945, which was below that of peacetime eastern garrisons.

Gen. Slim paid a tribute to India for the way in which she had provided fighting troops munitions and supplies for the Burma campaign.—Reuter.

Ernest Bevin said that he was glad that the unhappy incident between Britain and Russia over the Greek issue had closed. The Security Council, he said, had stood its first test well and with frank statements from all sides, many misunderstandings have been cleared. "We have done better than we knew," he added.

Members burst into cheering and clapping when Bevin, Vyshinsky and the chief American delegate, Mr. Edward Stettinius, warmly shook hands.

A London message says that the Soviet-Ukrainian delegate's charge against Britain concerning Indonesia might be withdrawn. The Security Council meets tonight to deal with the Indonesian question.—Reuter.

## The Golden Mean

AFTER eight years of war that has made serious inroads into her manpower and resources, China is about to settle down to the gigantic task of national reconstruction that was interrupted by Japanese aggression in July, 1937. The end of the war, however, finds her as one of the leading world powers. She has annexed several "firsts," not the least of which is her position as one of the "Big Five." But, sad to say, the internal strife which at times appeared about to plunge her in a bloody civil war has caused many to doubt whether she can actually rise and march forward to gather in the fruits of her victory, won at such tremendous sacrifice.

Peace has just only come to China. As for her nationals abroad, those in Indonesia and Indo-China, caught between two fires, have suffered great hardships and loss, while some sections of the Chinese in Malaya and Hong Kong seem to be in the grips of a tremendous perturbation.

In both the Colonies, Chinese have lived and prospered for more than a century under the British Flag, contributing in no small measure to the rapid development of these territories and, what is more, they have come to stay. The most cordial relations have always existed between them and the British Administration and they were proud to call themselves "King's Chinese." There was complete harmony until... the war broke out. And something has since happened to the traditional harmony. It is not our purpose here to probe the causes that led to the weakening of what were considered unbreakable bonds that united overseas Chinese with the British Empire. Suffice it to say, the relations today are somewhat strained, and it behoves everybody who has the true interests of Malaya at heart to dispel the suspicions and fears, whether real or imaginary, which have precipitated the present unhappy situation. The air must be immediately cleared and rumours enquired into and laid bare for all to see. It is here that the leaders of the community can play a useful part. As for the Administration, they have issued a clear statement of facts. If anybody desires to challenge these facts, he must be ready to provide evidence. He too will have a full hearing of his case and remember even the highest official is not above justice.

We read in China's history of the succession of civil wars, famine and pestilence that have at various times devastated her, and yet China as a nation has survived. Her very survival is a fact of tremendous importance. How did she survive? The one answer we can find is China's devotion to the central doctrine of that ageless philosopher Confucius—the Doctrine of the Golden Mean. Therein lies the secret to future survival both at home and abroad.

## DCCAO's Message To Railway Men

The following message from the D.C.C.A.O. was issued on January 29, to all Railway Employees:—

The Railways are functioning under great difficulties. Not only is there a considerable shortage of rolling stock and engines but the engines and rolling stock that are available have suffered from want of maintenance during the last three and a half years.

The railways are an essential part of the transport organisation of the country on which everyone depends for the distribution of foodstuffs and supplies, and for the proper working of trade. In peace time we had a very efficient railway system as part of the country's transport organisation, and the Government will aim at providing the same efficient service again, as soon as possible. Meanwhile, we must do the best we can with the materials available.

I know the stirring work which all railway employees are doing. I realise the very difficult conditions under which you are working after three and a half years of Japanese occupation, that supplies are short, that prices are high, that you cannot buy clothing and everyday essentials for yourselves and your families. These disadvantages are shared by everyone in this country at the present moment. We are doing what we can to help you. We are ready to listen to any reasonable grouse which you may have. We will gladly receive any proposals which you may have to make for improving these conditions.

And I am sure that, with the same loyalty and co-operation which marked your previous service, the Railway Administration will surmount all its difficulties and restore the efficient service to the public of which you, and we, are so proud.

## SPECIAL COURT, PERAK

Paragraph 6 of Proclamation No. 21—Special Courts Proclamation is republished below for information:

"Every person aware of the commission of a collaboration offence shall, in the absence of reasonable excuse the burden of which shall be on the person so aware, forthwith give information thereof to the Court before the first day of February, 1946. The Court shall not receive complaints after the said date except with the permission of the Deputy Chief Civil Affairs Officer who may either extend the time generally for making complaints or may grant an extension in any particular case."

In accordance with the above, no further complaints of alleged collaboration arising in No. 3 Region will be entertained by the Special Court, Perak. Only those complaints received prior to 1st February, 1946, will now be investigated.

## PENGHULU SENTENCED

Klang.—Che Abdullah bin Haji Snaik Hassan, former Penghulu of Kapar, and well-known resident of Kapar, was tried in the Superior Court at Klang, before Lt.-Col. A.J. Bostock Hill, assisted by two European assessors on charges of collaboration under the Treachery and Looting Enactment of 1941.

After a trial lasting four days, the accused was found guilty, and sentenced to be hanged on the charges of pointing out British soldiers to the Japanese in January 1942 at Kapar.

The accused was acquitted and discharged on the charges of pointing out Gurkha soldiers to the Japanese on Jan. 11, 1942 at Kapar.

## MR. H.W. MITCHELL

Mr. H.W. Mitchell, of the Posts and Telegraphs who was formerly in Ipoh, has returned as Assistant Controller Telecommunications and Telephones, Perak. He arrived in Singapore from India recently.

## NOTICE TO IMPORTERS

The distribution of essential supplies imported by the BMA (M) has so far been restricted to wholesalers. It is proposed however, at the earliest possible moment to transfer the handling of all such supplies to pre-war importers and arrangements to effect this are being made by the Division and Import Control Department of Trade and Industry Customs House Maxwell Road, Singapore.

All importers (except members of British import houses who have not yet been permitted to return to Malaya and from whom other arrangements are being made) who wish to participate in the distribution of these supplies are required before 28.2.46 to submit to the undersigned a statement on the approved form D.I.C.-1, of the extent of their imports for the years 1939 and 1940.

Two copies of the form D.I.C.-1 can be obtained on PERSONAL APPLICATION (except in cases where importers cannot conveniently so apply) at the following offices:—

## Indian Bank Opens In Ipoh

Another step towards the stabilisation of the finances of the country and the speedy rehabilitation of Perak is the establishment in Ipoh of the Indian Overseas Bank which was officially declared open yesterday by Mr. Lau Pak Khuan, J.P., well-known leader of the Chinese community.

In a brief ceremony attended by banking officials, community leaders and Service personnel, Mr. Lau said: "Being an old resident of Malaya, I have known of your bank's pre-war activities in this land. Your bank's past investments in this country prove your strong confidence in Malaya."

Continuing, he said that Chinese and Indians had always co-operated with one another in all their activities.

As an instance of the cordial relations existing between Indians and Chinese, he recalled the visit of Marshal

Chiang Kai-shek to India during wartime. Mr. Lau assured them of unstinted support, and on behalf of the Chinese Chamber of Commerce and the overseas Chinese he wished the new bank every success.

After thanking the guests for their good wishes Rao Sahib S.R.V. Arasu, district manager, traced the history of the bank and declared that its position had been so well enhanced that their investments before the outbreak of the war were well over \$3½ millions.

The primary object of the bank, Mr. Arasu said, was to work in close co-operation with sister institutions with a view to affording necessary credit facilities to the public in general and mercantile community in particular.

In the evening a reception was held at the Hotel Metropole where speeches, wishing the new bank every success were made by Mr. Lau Pak Khuan, Y.T.M. Raja Muda, Messrs. J.V. Morais and P. L. Nachappa Chettiar.

Rao Sahib Arasu thanked those present for their attendance and for the sentiments expressed.

Messages from leading Indians and Indian firms and other well-wishers were read out by Mr. S. Ramaswami of Penang.

## Dr. Samuel Acquitted

Ipo.—In the first collaboration case to be heard here before a Court of British officers, presided over by Lt.-Col. J.G. Adams and assisted by Lt. Boorer R.A. and Lt. Vaughan R.A., 48-year-old Dr. J. J. Samuel of Kampar was yesterday acquitted and discharged on all three charges—two of assisting the enemy by collecting certain fees from two Indians and a

third of ordering another Indian to join the INA.

After hearing an address by Mr. H.T. Ong, counsel for the defence, the Court retired for 12 minutes. Lt.-Col. Adams, then returned the verdict acquitting and discharging the accused on the three counts, without calling upon the defence.

The Presiding Officer said that the object of the court was to settle cases according to the law and to be free of politics.

The first and third charges were similar, and in quoting the law of the Usages of War, the President said that the occupying power may not create new taxes as that is the right of the legitimate sovereign, but he may raise money by contribution.

Dr. Samuel as a leading figure of the Indian community in Kampar was therefore required to collect certain funds for the administration of the country. He therefore did no more than collect a head tax and therefore he was acquitted and discharged on these counts.

Regarding the second charge which specified that he had "ordered" Mohd. Ali to join the INA, there was no evidence produced to show that Dr. Samuel had ever done so and he was acquitted and discharged on the second charge as well.

## Ipo Students In Canton

Ipo.—A number of Malayan students overseas, who have lost touch with their families in Malaya, have now been traced in Canton, at the following address: Care of the Malayan Association, Sun Yat-sen University, Canton, South China.

**HILARIOUS COMEDY**  
"BUCK PRIVATES" with Bud Abbott, Lou Costello and the Andrews Sisters, a Universal's Production, (at the Ruby) which opened yesterday provides hilarious entertainment that should not be missed. It is easily one of the best comedies seen here for some time.

**FIGHTERS FOR FREEDOM**  
Jerusalem, Feb. 6.—The "Fighters for the freedom of Israel" comprising members of the Stern Gang, (a Jewish resistance organisation) today issued leaflets containing a four-point declaration war against the British authorities in Palestine.—Reuter.
